

## **MIDDLE SCHOOL STUDENT EXTRACURRICULAR ELIGIBILITY**

OABCIG believes that academic success comes first. OABCIG Middle School scholastic eligibility for participation in extracurricular activities will be checked and reported to extracurricular activity teachers and coaches every two/three weeks throughout the school year. Progress reports will be updated on Thursdays and be sent on Friday. Coaches/Administration will be notified by the office of ineligible participants on Friday and inform the ineligible students the same day of their ineligibility status. **A student failing any subject will be ineligible to participate in the first extra-curricular event in the school week following the release of the progress report indicating the failing grade.** Following the missed extracurricular activity, students who raise their failing grade to passing will again be eligible to participate. If declared academically ineligible, the student is responsible to arrange time with the teacher of the class that he/she is failing to make up work/tests to earn a passing grade.
